DIDSBURY, ALBERTA. THURSDAY, JULY 9, 1936

\$2.00 per year. 5 cents a copy.

"Prosperity Bonds" Road Work Pay

In line with the government's policy on the issuing of "prosperity bonds" the Didsbury and Olds constituencies are slated to receive \$5,000.00 worth of bonds.

Mr. A. Frame, district engineer for the provincial government, met with the councils of Mountain View, Westerdale and Waterloo to make plans for the road work to be done in this district and to ask for co-operation in supplying the road equipment needed.

The allotment for the Didsbury constituency will be \$4,000.00 for gravelling a "Class B" road near Carbon, and \$1,000.00 for road work in the Big Prairie area.

Of the allotment for Olds \$4,000.00 will be used on earthwork on the Sundre Road, and \$1,000.00 on earthwork on the road from Bergen to Sundre.

The rate of pay established will be 40c per hour for single man; 65c per hour for man and team, and 85c per hour for man and four horses.

Prosperity Bonds, but no cash, will be paid for the labor, and they will only be paid at the rate of \$40.00 per month, at the present time, the balance earned to be paid during the winter months.

Crystal Dairy Again In Limelight

At the Calgary Exhibition on Monday the Crystal Dairy won 1st prize in June-Make Butter in competition with the best butter makers throughout the Dominion. This reflects great credit on the local dairy and local producers on the high quality of their cream.

J. V. BERSCHT

Farewell Sermon.

Preaching his farewell sermon at Zion Evangelical Church, Rev. H. J. Wood spoke on "The Grace of Hospitality." He spoke very feelingly of the happy years spent as pastor of this charge and expressed his appreciation of the co-operation received from every department of the church and asked for the same co-operation for his successor.

Rev. and Mrs. Wood and family left Wednesday (yesterday) for Winnipeg, where Mr. Wood has been transferred to Calvary Evangelical Church. The Pioneer joins with the many expressions of goodwill extended.

U.F.A. & U.F.W.A. Board Meeting

The Board of Didsbury U.F.A. and U.F.W.A. Constituency Convention Association met at the home of Mr. and Mrs. John Liesemer on Monday, June 29.

In addition to the board the visitors included: Mr. H. W. Wood, Calgary; Miss McNeil, Calgary; Mr. Bligh Hart, Carbon; Mr. A. B. Claypool, Swallow; Mr. J. Spaulding, Carstairs, and Mr. Charles Dickau, Lethbridge. Lunch was served at 1 p.m. and the business session followed immediately after.

Plans were made for the annual convention, which is to be held in Carstairs at the home of Mr. and Mrs. H. W. Wood on July 30. If the weather permits this convention is to be held in the open under the trees.

After the Board had completed its session, a pleasant social hour followed, the ladies again serving the refreshments.

SOCIAL CREDIT NOTES

Didsbury Pioneer S.C. Group held its regular meeting Monday evening at the home of Matthew Green. The subject studied was "The Prosperity Bonds—Their Use and Purpose." After the study and discussion the group unanimously decided to appeal to all Social Crediters to refuse patronage to any merchant or dealer who refuses to accept Prosperity Bonds. The president again appealed to the members to hear and study the explanations on the progress of Social Credit which are broadcast over the radio. After business and study was dispensed with a delightful lunch was served by the social committee. The next meeting will be held at the home of the president, Mr. M. Weber, on Monday, July 13 at 8 p.m. All are welcome.

Burnside Notes.

Miss Lydia Kromm and Mr. Arthur Liesemer, youngest son of Mr. and Mrs. C. R. Liesemer, were married in Didsbury on Sunday, July 5, and spent their honeymoon in Calgary, taking in the Stampede. Congratulations.

Mr. and Mrs. Eckel spent the weekend in Calgary visiting some friends who were on their way home from the coast to their home in Walkerton, Ont.

Mr. and Mrs. Wilbur Rieder left last Wednesday for Yellowstone National Park where they will spend their holidays.

LOCAL & GENERAL

Miss Bertha Wall is spending a week at the home of her parents at Crossfield.

Mr. and Mrs. J. W. Smiley, of Nelson B.C. are visitors with Mr. and Mrs. J. V. Berscht.

Mr. and Mrs. Ed. Watkin are spending a two weeks vacation at Banff.

Mr. and Mrs. C. S. Mortimer have as their guests this week, Major and Mrs. D. A. Petrie of Edmonton.

Want a Good Time? Then come to the Dance at Rugby School on Friday, July 17th. Good Music Gents \$35.

Mr. and Mrs. W. A. MacFarquhar are spending the present week at points along the Banff-Windermere road.

Mr. and Mrs. W. Battler and daughter, Jean, of Stratford, Ont., were visitors last week with Mr. Battler's aunt, Mrs. L. Thaler.

Mr. and Mrs. Tom DeWitt left Tuesday morning for Throne, Alta., where Mr. DeWitt has been transferred as agent of the Alberta Wheat Pool Elevator.

Jimmy Nelson and George Rodney are taking in the Stampede at Calgary for a few days. Jimmy is also visiting his parents and some relatives.

Band Earns Honorable Mention

Didsbury Band drew more than its share of favorable comment at the Stampede parade, on Monday. The natty uniforms and smart marching were second to none.

Delightful Surprise.

Rev. H. J. and Mrs. Wood were delightfully surprised last Monday night by the congregation of the Evangelical Church, who gathered at the church to say farewell to their departing pastor.

With Mr. H. M. Reiber acting as chairman the evening was taken up with a varied program of music and games. On behalf of the congregation Mr. J. V. Berscht and Mr. Ed. Rieder presented Mr. and Mrs. Wood with a purse. Mrs. Boettger and Mrs. Berscht presented Mrs. Wood with a silver water pitcher from the Ladies Aid and Miss Iva Rupp presented a cake-plate from the Missionary circle. Rev. Wood was presented with a desk lamp from his Sunday School class and for the Young People's Society Gerald Boettger presented the departing couple with an electric toaster.

RUGBY NOTES

On Thursday last, Mrs. Harvey Hosegood entertained a large number of guests at a shower in honor of Miss Beattie Evans, popular bride-elect of the month. The afternoon was spent in making quilt blocks which were presented to the guest of honor. Prizes for the neatest and the most work went to Mrs. M. Campbell, Mrs. Dobson, Mrs. W. F. Brown and Miss Marguerite Anderson. A humorous reading was given by Mrs. James Hughes, following which, a lovely luncheon was served by the hostess. Miss Evans was presented with a handsome travelling case by friends in the district, besides being the recipient of many other beautiful and useful gifts.

At the Movies.

Produced by RKO Radio studio and staff, Liam O'Flaherty's widely read novel, "The Informer," comes to the Opera House this Friday and Saturday, July 10 and 11.

Accounted one of the greatest character studies and most absorbing stories known to literature, "The Informer" affords its star, Victor McLaglen, what he considers the finest role of his entire career. While the drama centres closely about one character, roles of extraordinary power and human qualities are carried by Margot Grahame, Preston Foster, Heather Angel, Wallace Ford, Una O'Connor, J. M. Kerrigan, Joseph Sayers, Neil Fitzgerald, May Boley, Grizelda Harvey, Donald Meek, and other members of the large supporting cast.

Having Dublin, Ireland, as its locale, and the troubled years following the World War as its period, the story centres around the dramatic theme of betrayal. Gypo Nolan, a giant in stature and a pigmy in intellect, "informs" on a pal for a price. His weakness for a beautiful blonde woman motivates the act.

With 20 pounds in his pocket, and the worst crime known to his compatriots on his conscience, Gypo becomes a man relentlessly pursued by fate. Alternately lifted to drunken heights of grandeur delusions, tortured by mad fear, torn by remorse, and harried by superstition, he is carried from one dramatic situation to another. Comedy relief highlights the stark drama of the story, and a softer romance between Preston Foster and Heather Angel provides contrast to the attraction between McLaglen and Miss Grahame.

Liam O'Flaherty's novel was first published in London in 1925. It was published in New York the following year and has since been translated into many foreign languages, taking its place as a universally acclaimed masterpiece of fiction.

Mountain View Notes

The pupils of Mona School and their parents held a picnic July 30. Races, games and a baseball match were the orders of the day, after which a delicious lunch was served. The day's enjoyment was somewhat saddened by the death of Mr. Funk, father of two of the pupils of the pupils.

Miss Jeanette Bruce returned Monday from a week at Calgary.

Council Sets Mill Rate.

At the regular meeting of the town council held Monday night Councilor C. E. Reiber was appointed acting mayor in the absence of Mayor Chambers, who is holidaying at Vancouver.

Considerable time was spent in discussing the mill rate, with the result that the municipal rate of 11 mills was left unchanged, but the school rate was reduced from 13 to 12 mills. The new social service tax is 4 3-5 mills.

WEDDINGS

PRATT—MILLER.

A quiet wedding was held at St. Cyprian's Church on Wednesday, July 1, when Miss Gertrude Miller, daughter of Mr. and Mrs. John Miller, of Burnside, was united in marriage with Mr. Tom Pratt, son of Mr. and Mrs. E. K. Pratt. Only relatives and immediate friends were present at the ceremony, performed by Rev. A. D. Currie.

As the bridal party entered the church the Wedding March was played by Miss Jo Becker. The bride was attired in a beautiful gown of white lace over silk and carried a bouquet of Johanna roses. She was given in marriage by her father and was attended by her sister, Miss Alice Miller, who wore a pink chiffon gown and a large picture hat to match. The groom was attended by his brother, David Pratt.

Immediately after the ceremony the happy couple left on their honeymoon, which will be spent in British Columbia and Washington.

LIESEMER—KROMM

A very quiet wedding was solemnized at the Knox United Church at 5 p.m. Sunday, when Miss Lydia Kromm, daughter of Mr. and Mrs. Henry Kromm, was united in marriage with Mr. Arthur Henry Liesemer, son of Mr. and Mrs. Conrad Liesemer, of Didsbury. Rev. J. R. Geeson officiating in the presence of a number of relatives.

The bride was assisted by Mrs. E. Clipperton, while Henry Kromm supported the groom.

The Need For Security

With the international situation, not only in Europe but also in the Orient becoming daily more fraught with peril, the necessity for a rejuvenated and strengthened League of Nations becomes apparent, if world peace is to be preserved.

First hint of the likelihood of an eventuality, which must have been obvious for some time to student-observers of international trends came in despatches recently to the daily press of this country when the Italian Mussolini was reported to be paving the way for a rapprochement between Italy, Germany and Austria by attempting to effect a reconciliation of differences between the last two mentioned countries.

When one considers the situation in which these three countries find themselves an alliance in a common cause appears a natural probability. All three sustained serious losses during the Great War and its aftermath. All three are in urgent need of extension of territory to provide an outlet for a large number of unemployed or partially submerged population, or as a source of raw materials or for the promotion of trade or for all three. All three are in the same political as well as the same economic boat for they are fascist, dictator-ruled. The people of all three countries are intensely ambitious to regain what they have lost and this is probably the principal reason why they are content with the form of government they have.

It is true that the Italian aggression in Ethiopia appears, on the face of it, to have resulted in triumphant achievement for the Italian forces, but it is doubtful whether, in the long run, acquisition of Abyssinia, even if subsequent events do not result in some modification of the fruits of victory at the insistence of the League, will prove of great economic benefit to Rome. In any event, it can surely be taken for granted that Mussolini and the Italian people, in their present frame of mind, will not be satisfied to call it a day and sheathe the sword.

With this Italian viewpoint prevailing and Germany and France eyeing one another with distrust and apprehension, an alliance between Germany and Italy, fortified by Austria, could not be calculated to render the European situation more secure. Both Italy and Germany are not only well armed and equipped but are perfecting their war machines to the nth degree of perfection, including the training of children of tender years.

The situation is an exceedingly difficult one for Great Britain whose people do not wish to be dragged into another conflagration. On the contrary the inhabitants of the "tight little isle" are bending their energies towards recovery of economic conditions and statistics prove that they are well on the road towards this objective.

While the British government is keenly alive to the dangers of the international situation, fortunately her statesmen are not disposed to be stampeded into any precipitate measures and quite evidently the people of the country are well satisfied with Anthony Eden's recent assurance that in the council of the League of Nations the country is prepared to "play its part."

Expressing satisfaction with this viewpoint the London Times in a recent editorial said:

"If the League, even the incomplete League, had disposed of the will, as it certainly disposed of the means, to bring aggression to a standstill by economic non-co-operation, nothing would now be heard of the contention that the refusal of aid to the aggressor means war; peace would have made successful trial of its resources, and generally we should be looking on a very different picture today.

"Yet, even if the League had succeeded, as it clearly could have succeeded, in the policy of passive resistance, it would still have been necessary to write another chapter in its development and to increase its powers by completing its membership and making its functions correspond with its capacity. The obstacle to be overcome is the 'spirit of mutual distrust between France and Germany.'

"The outlook would be gloomy indeed if no effort were being, or could be, made to attack this mistrust at its roots, and no responsibility could be more willingly and gladly borne by British statesmanship than that of seeking the means to end an antagonism which survives to the common danger."

The Times goes on to say that this endeavor was moved into the stage of "serious practical discussions when the questions addressed to the German government on the subject of Herr Hitler's proposals for a lasting European settlement were published in a British White Paper" and suggests that conversations be pursued in a manner that will permit of "fewer opportunities for any possible misunderstanding of tone and intention on either side."

Only Too Clear

A motorist was giving a woman lessons in driving.

"The hand lever," he said, "brakes the rear wheels only, and the foot pedal brakes all four. Is that clear?"

"Myes," replied the woman, doubtfully, "but I'd rather not have any of them broken."

MINARD'S
"KING OF PAIN"
LINIMENT

Originated With Latin Poet

The expression "Rome was not built in a day" is believed to have originated with the poet Claudius Claudianus, one of the last of the Latin poets (about 400 A.D.). Claudianus wrote: "What Roman power slowly built, an unarmed traitor instantly overthrew." The proverb gradually became modified until it survives in its present form.

Russian Armaments

Soviet Government Plans To Expend Huge Sum This Year

When the Japanese war office starts to draw attention to the weight of Russian armaments, there is some reason to suggest that the pot is calling the kettle black. Japan devoted 47 per cent. of her whole budgetary expenditure last year to defence, and this year proposes to spend 50 per cent. Even so her military budgets, and those of all other countries, pale into insignificance by comparison with Russia's. Marshal Tukhachevski, deputy-commissar of defence, recently announced that in 1936 the Soviet would expend 14,800,000,000 roubles on her military forces. At the official rate of exchange this sum represents £2,600,000,000 sterling. Britain has for months been debating whether she should spend half the latter sum, spread over a period of years, on modernizing her sea, land and air forces. From all this it is clear enough that, whether the Japanese war office wishes to put the nation on guard or merely to raise a bogey, it has substantial material to exploit.—Auckland News.

WAKE UP YOUR LIVER BILE—

And You'll Jump Out of Bed in the Morning Rarin' to Go

The liver should pour out two pounds of fluid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas builds up your stomach. You get constipated. Harmful poisons go into the body, and you feel sour, sunk and the world looks punk. A mere bowel movement doesn't always get at the cause. You need something that works on the liver as well. It takes those good, old Carter's Little Liver Pills to get these two pounds of bile flowing freely and make you feel "up and up". Harmless and gentle, they make the bile flow freely. They do the work of calomel but have no calomel or mercury in them. Ask for Carter's Little Liver Pills by name! Stubbornly refuse anything else. See.

A Serious Problem

Restoration Of Confidence In The Country's Wheat Is Needed

Canada's most serious problem in the opinion of Dr. W. W. Swanson, head of the department of economics at the University of Saskatchewan, is a restoration of confidence in the country's wheat.

This is particularly so after the "alarmist" publicity given to the product because of a temporary crop surplus, said Dr. Swanson. The surplus, he held, was only temporary although it has aroused wholly unfounded fears of overproduction.

"There has never been any world overproduction of wheat nor any chance of world overproduction," he said in an interview in Montreal. "There was a temporary condition of surplus produced by unusual crop conditions in 1928, which was exaggerated by the crash of speculative markets. It has been impossible for this country to sell its wheat freely at fair prices until this alarm dies down."

Made Hospital Governor

Honor Conferred On Seven-Year-Old Boy In England

George Thornton, aged seven, of Nottingham, is the youngest hospital governor in England. He has just been elected a life governor of the Royal Eye Hospital, Southwark. The honor was conferred on him because of his success as a collector for the hospital. George was a patient at the hospital two years ago.

Whether Gold Shipments Have To Be Heavily Guarded

A traveler recently returned from foreign parts tells me a story about gold. It seems that the ship on which this traveler returned loaded a large consignment of gold at Havre. The stuff was loaded much like any other cargo, only it was lowered into a special hold. And what struck my informant about the operation was the fact that while the loading was in progress not a single uniformed minion of the French law was in sight on the dock or on the ship.

There were numerous representatives of the banks making the shipment and numerous French longshoremen in blue blouses gesticulating and calling to each other in the high-pitched nasal tones which foreigners who try to learn French are never able to reproduce. The banks' agents simply checked the gold aboard and the ship's officers checked with them. Then the hatches were closed, and that was that.

But when the ship got to New York passengers were astonished to see what looked like a whole platoon of police rush on the gangplank the moment the ship docked.

The voyager from whom I had the story says he thought perhaps the ship was bringing back some dangerous criminal incognito, but when he inquired he found that the police had come aboard only to stand guard while the gold was being unloaded.—Baltimore Sun.

SELECTED RECIPES

CANADA CAKE

1 cup white sugar
2 eggs
1/2 cup milk
1/2 cup butter
1 1/2 cups Purity Flour
1 1/2 teaspoon baking powder
1/4 teaspoon salt
1 teaspoon vanilla
Method—1. Cream butter. 2. Add sugar gradually. 3. Beat in unbeaten eggs. 4. Add milk and vanilla. 5. Sift flour with baking powder and salt and add to mixture No. 4. 6. Bake in layer or loaf cake tins in moderate oven of 375 degrees for 20 minutes.

Recruiting Officer—So you want to enlist, do you? Are you sure?

Candidate—Yes, sir. I belong to the fighting MacGuire's and we never miss a scrimmage. I want to enlist for the duration of the war—or longer if it keeps up that long.

Letter Will Be Treasured

Has Been Twice Around World And Was Sunk In Air Liner

Rare letter was found among the letters recovered from the sunken air liner, City of Khartoum, which crashed into the sea off Alexandria, killing 12 people. It had been twice around the world. The letter, was sent to Mr. E. W. C. Hughes, of Bowaters (of Australia), Ltd. It was posted in London to reach Mr. Hughes when he arrived in Montreal. He had already left Montreal when it arrived. The letter was then forwarded to him in New York. It missed him there too. From New York it was sent to a wrong address to Sydney, and redirected to the sender in London. It set out again on its travels in the City of Khartoum and went to the bottom of the sea with the rest of the mail. And now at last the letter has reached Mr. Hughes, who says he will treasure it as a memento of a very tragic occurrence. Although it is tattered and stained with salt water, the contents are easily legible.

Rather Snappy Problem

Deciding Whether Rubber Bands Were Classed As Stationery

Rubber bands vexed the Dominion railway board when it tried to decide whether they were stationery and hence entitled to lower freight rates.

Hon. Hugh Guthrie, chairman, said they were used in stores instead of string and string is not stationery. They are nearly all sold by stationers so must be stationery. D. W. Buchanan argued for the Stationers' Guild of Canada. George Ranson, chairman of the Canadian Freight Association, declared "drug stores sell sandwiches, but that doesn't make sandwiches drugs." Elastic bands have an elastic price, Mr. Ranson said. In Toronto they are \$150 a unit, in Montreal \$120, in Regina \$175.

Lived Centuries Ago

Gold-Encased Body Of Old Chief Priest Found

Discovery of a gold-encased body, believed to be that of Ka Niht, chief priest in the fifth Egyptian dynasty, was announced by Selim Hassan Bey, professor of Egyptology at the University of Cairo. The professor found a body wrapped in gold leaf and wearing a thin gold crown. A bead necklace also was found as well as a gold-encased cane. Ka Niht was Director of Granaries, chief scribe and chief priest to the Pharaoh Sahure. Sahure lived about 2200 years B.C.

Pay Tribute To Memory Of Man Who Did Much For Agriculture In Canada

Doubtless there were few persons who foresaw that the birth of a boy in the County of Devon, England, on June 16, 1836, christened William Saunders was an event that would later prove of the most profound significance to the Dominion of Canada. The fact is that no other man has made a greater contribution to Canadian agriculture than the late Dr. William Saunders. The chain of Dominion Experimental Farms and Stations is virtually a monument to the work he began 50 years ago, for he was the first director of this system of farms, which are now located in strategic positions across the entire length of the Dominion.

The new administration building at the Central Experimental Farm to be known as the William Saunders Building, and which was opened on June 6, stands upon the site of his former home.

William Saunders came to Canada as a boy of 12 with his parents, who settled at London, Ontario, and there on September 13, 1914, three years after his retirement as director of the Dominion Experimental Farms, his long, useful life closed. His death removed a man whose contribution to the national welfare in its widest aspect, was fully equal to that of any statesman, or great man in any of the other vocations. It was said of Dr. Saunders that no man did more or will ever have the opportunity which he had and of which he took the fullest advantage to increase the production of land in Canada.

When Hon. John Carling (later Sir John) as Dominion Minister of Agriculture, who represented London, Ontario, in the House of Commons, was authorized in 1885 to proceed with the organization of a system of experimental farms, he selected his fellow citizen, William Saunders, who by that time had established a reputation as a botanist, entomologist, horticulturist and business man, to visit the United States for the purpose of learning how the experimental stations in that country were operated and with what success.

The previous year a Select Committee of the House of Commons was appointed to inquire into the best means of encouraging and developing agriculture in Canada and the establishment of experimental farms was the committee's recommendation. William Saunders' report, following his visit to the United States, resulted in an Act being passed in 1886 by the Dominion parliament for the establishment of an Experimental Farm for the provinces of Ontario and Quebec jointly—this farm to be known as the Central Farm—together with one for the Maritime provinces, one for Manitoba, one for the Northwest Territories (now the provinces of Saskatchewan and Alberta) and one for British Columbia.

Dr. Saunders' interests, however, included all phases of ornamental horticulture. He was largely responsible for introducing and disseminating in Canada the Caragana or Siberian Pea Tree, which he recognized as having great possibilities for Western Canada on account of its extreme hardiness and rapid growth under semi-arid conditions. His breeding work with roses resulted in the creation of varieties such as the Agnes and Mary Arnot, while many new varieties of gladioli and other flowers were the result of his efforts. His knowledge of Canadian trees and shrubs resulted in the Arboretum at the Central Experimental Farm, Ottawa, and excellent plantings on the five original experimental farms and on many public institutions throughout Canada.

Dr. Saunders' introduction to Canada of many varieties of forage crops which play a very important part in the present production of such crops is probably not generally recognized. It was he who in 1887 introduced Brome grass from Russia. Earlier work inaugurated by him brought into domestic use on such a large scale Western Rye grass, while his early interest in the introduction and adoption of better varieties of corn, clovers, and the like, resulted in ex-

periments which in turn caused the adoption of crop practices on which the live stock industry of Eastern Canada has been built.

Because of the great needs for newer and better cereals and the lack of such varieties throughout the world, Dr. Saunders displayed a particular interest towards the unexplored field of plant breeding. He realized that a significant contribution was possible in the field of cereal production. The great North West needed earlier maturing and better varieties. Shortly after his appointment as director of Experimental Farms he undertook to apply the same methods of plant breeding to cereals as he had already succeeded in applying to bush and tree fruits. Importations of varieties of wheat were made from Northern Russia, Northern India, Japan, United States, and elsewhere, but those from the first two mentioned places proved to have the early maturity he so much desired. Unfortunately these varieties were low in yield and of inferior milling quality; hence, in 1888 he began a programme of cross-breeding which in five years' time produced over 700 new sorts of wheat, the most of which carried the parent characters of either Red or White Fife varieties which were well known as later maturing, high quality wheats, with also the early maturity characteristics of the imported sorts. Many varieties of cereals which were fixed in type and distributed by him from this earlier work include spring wheat such as Huron, Percy and Preston, Stella barley and Arthur and Mackay field peas. Many exceedingly promising second and third cross wheats still remained to be perfected by rigid selection, such as Markham, the variety from which Marquis was later selected.

By the year 1903 Dr. William Saunders had trained his son, now Sir Charles Saunders, as his successor in cereal breeding work and turned over to him for further perfection some 48 varieties of wheat, 11 varieties of oats, 23 varieties of barley, and 24 varieties of peas, together with a vast amount of hybrid material not yet fixed in type. With this foundation on which to work, Sir Charles Saunders developed Marquis wheat.

Dr. Saunders was a great administrator. Those who knew him loved him. He was always kind and considerate, never petulant, but quiet, firm, endowed with excellent judgment of both men and affairs. There was no impetuosity or desire for exaggeration in his character. His regard for the truth in all things was an inflexible characteristic, and he was a strict disciplinarian. He had a fine respect for the public purse, which at the time the farms were started, was an essential attribute, for otherwise the system might have been wrecked in its infancy. In looks Dr. Saunders personified the benevolent savant that he was.

New Society In Japan

Beard Growers Organize And Over 100 Men Enrolled

Whiskers, beards and mustaches of many shapes and sizes were on display in Tokyo when their owners gathered from all parts of Japan and Korea to organize a national society dedicated to the fostering of "beautiful grooming" among old men. More than 100 men, whose ages averaged 70 years were enrolled. Only a few black beards were in the lot, no reds, but plenty of greys. One mustache originated beneath its owner's nose, then swooped out about eight inches to his left and right, looped and ended with a tip in each ear. The record beard, owned by Nobujiro Kato, 72, was five feet long. He calls it "White Falls," and to keep it off the ground he carries it in a bag when he walks.

Teacher (during history lesson): "What are the races which have dominated England since the invasion of the Romans?"

Small Boy: "The Derby and the Grand National, Miss." 2155

Population Figures

Java Has Over Eight Hundred Persons To Square Mile

In an area of approximately 54,200 square miles, Czechoslovakia has a population of 14,600,000.

Half of Australia's population of 6,350,000 lives in capital cities and another 15 per cent. in provincial towns. The remaining 85 per cent. provide more than half the produce of the Commonwealth.

The Philippines, with all their 7,083 islands, have an area of only 114,000 square miles, or about that of the state of Arizona. The population of the Philippines is almost 12,000,000, while Arizona has only 435,000 inhabitants.

Belgium supports a population of more than 8,100,000 on an area of about 11,745 square miles.

Java is the most thickly populated country in the world. It has 821 persons to the square mile.

More than one-fifth of the local population of England and Wales live in Greater London.—National Enterprise Association.

Has Faith In Newspapers

Chicago Firm Believes They Are Best Advertising Medium

General R. E. Wood, president of Sears, Roebuck & Co., Chicago, announced that the company will spend \$9,500,000 for newspaper advertising in 1936. The advertising campaign, which will include 851 newspapers in 44 states, is a result of the company's experiments with almost every type of medium since the opening of its retail stores eleven years ago, according to G. W. Cunningham, advertising manager.

"Results have demonstrated to us that the newspaper is by far the most effective medium for the promotion of our retail sales," Mr. Cunningham said.

General Wood also announced a proposed increase of \$60,000,000 is the firm's merchandising program in 1936. "The program for 1936 is based on our belief in a further business revival and in the maintenance of improved farm conditions," he said.

Continue Work In North

Dominion Geologists To Carry On Investigations In Saskatchewan

Two Dominion geological parties will operate in northern Saskatchewan this year, one in the Rottenstone lake area, and the other at the eastern end of Lake Athabasca at Fond du Lac.

Dr. F. J. Alcock of the department of mines, Ottawa, will be in charge of the work at Fond du Lac.

Early this spring representations were made to Hon. T. A. Crerar, minister of mines, to have work continue in the north and as a result of these representations the federal government has agreed to send these two parties in to continue investigations.

Story Is Told Of Aid Given American Legation In Addis Ababa By British

Capture Sea Serpent

Strange Creature Discovered On Beach At Pacific Coast

A 12-foot 1,300-pound "sea serpent," discovered on the beach near Aberdeen, Wash., was being examined by a zoologist, D. W. Black of Baltimore, and his two assistants.

Black said the creature faintly resembles reconstructed skeletons of prehistoric animals. The creature has a head similar to that of a goat, eyes eight inches apart and deep-set like a pig's, and heavy, sharp teeth.

The nose is missing, but the distance from the crown of the head to the end of the snout is 14 inches. The body is tapered like a buffalo's, with a four-foot tail like that of a muskrat.

With heavy and oily skin, the creature has 14 ribs, each about an inch and a half wide and four inches apart.

Black said that in 16 years of research he never saw such an animal before.

Two years ago a "sea serpent" was washed ashore near Prince Rupert, B.C., but he turned out to be a wax-nosed shark.

Alarm Times 'Phone Talk

Device Gives Warning Half Minute Before Time Is Up

It no longer is necessary to watch the clock to avoid extra charges in telephoning. When the telephone operator announces that the three-minute interval is up, sometimes persons are in the midst of a conversation that cannot be finished without an extra fee.

An ingenious telephone call-time has been devised which warns of the approach of the end of the call. The device consists of an hour-glass arrangement which rings a bell at the end of two and a half minutes. The half-minute which follows before the end of the telephone period should be long enough to finish the conversation. The phone call alarm which was shown in Germany at the Leipzig fair is devised for world-wide use, as the limit for telephone call is three minutes in virtually every civilized country in the world.

Revert To First Principles

If the benefits of Christianity were taken away, in less than three generations, men would be like beasts, and gangsterism would spread through the community, crushing out those unable to resist power, declared Major H. A. Proctor, member of the British House of Commons, speaking at the Ontario convention of the Church of Christ Disciples, London.

An interesting story is told of the manner in which aid was given to the American Legation in Addis Ababa by British troops before the triumphal entry into the city by the Italians. The Legations in Addis Ababa were imperilled by riotous Abyssinians before the arrival of the Italian troops. American newspapers were greatly excited over the efforts made on behalf of the United States Legation by the Sikh guard of the British Legation; and the American Ambassador has revealed how British assistance was solicited. The two Legations were only five miles apart; but the Americans were beleaguered by a murderous rabble and no message could be sent direct. However, with a small portable wireless set the American minister got in touch with one of his country's warships, who relayed it, via the Philippines, to San Francisco and Washington. Washington got on the trans-Atlantic telephone to the American Embassy in London; Mr. Bingham rang up the Foreign Office; and five minutes later Sir Sidney Barton in Addis Ababa was making his dispositions for the relief of the threatened Legation.

The story was fully and generously told by Mr. Bingham at a Guildhall dinner. He explained that when the news of the American Legation's danger reached Sir Sidney Barton, the British forces were engaged in beating off an attack upon the Belgian Legation, which lay next door.

There were perhaps some 3,000 refugees within the compound of the British Legation. If the Belgian Legation were taken it meant the slaughter of many people, but the very moment that that attack was beaten off an armed convoy went to the rescue of the American Minister and his wife and the American citizens in our Legation. That is just a fundamental fact. It happens, and always will happen. It has been our privilege to extend that kind of aid. On this occasion it came unhesitatingly. It came exactly as I knew it would come—immediately, sympathetically, brave, and resourceful.

The King, who received from Mr. Bingham the thanks of the American President, sent his own congratulations to Sir Sidney Barton and to the Legation staff and guard. Belgian thanks were conveyed by the Belgian Ambassador through the Foreign Office.

Equals European Wood

Newfoundland Timber Is Good But Needs More Care

Newfoundland timber was generally admitted to be at least equal to Northern European wood in physical qualities, but the same care in production was not taken, Jack Miner, chief forestry officer of the department of natural resources, said in a report published following a study of United Kingdom markets.

Chief Forestry Officer Turner said he talked with importers, dealers and users, operators of two coal mines, a paper mill, one newsprint mill, and a number of timber storage yards during his tour.

"Newfoundland wood is strong enough for pitprops and structural timbers and gives a high yield of good fibre for paper making. Our spruce and balsam are rated as good raw material.

"Unfortunately, the finished product—pitprops, pulpwood or wood wool stock—is often not good," the report stated.

While it was "almost unheard of" for a shipment of Finnish or Russian wood to be rejected, some wood was turned down in almost every Newfoundland shipment to the British Isles.

Starts Flying Mission

Using his aeroplane, Silver Wings, and a mobile broadcasting unit, Rev. C. D. C. Boulton of Warblington will embark on a "flying mission" to cover the whole of England. Mr. Boulton, who is known as the "Flying Curate," aims at reaching the younger generation—"to take religion to them rather than wait until they come to the church."

Begin Right Away On This Applique

Household Arts by Alice Brooks

Bright Flower Patches Make Small Linens Gay

PATTERN 5635

Picturesque Iris—vivid tulips in sturdy pots! And you can have your own "never fade" variety indoors, all the year 'round! It takes but a bit of needlework gardening, or "applique" to make them bloom gaily along a towel or pillowcase border, or on a dresser scarf. Just idle scraps make the simple patches, and a bit of floss, their outline and stems. You'll also want companion pattern 5348, which appeared a short time ago, to complete a set of "flower pot" linens.

In pattern 5635 you will find a transfer pattern of two motifs 5 1/4 x 15 inches, two motifs 5 1/4 x 15 inches and the patterns for the applique patches; material requirements; color suggestions; illustrations of all stitches needed. To obtain this pattern send 20 cents in stamps or coin (coin preferred) to Household Arts Dept., Winnipeg Newspaper Union, 175 McDermot Ave. E., Winnipeg.

There is no Alice Brooks pattern book published

Special Prizes For Didsbury Fair

—For Classes in Prize Book.

Ivan Weber:
Best agricultural mare with foal at foot—\$5.00.

Midland Pacific Grain:
Grade dry mare or gelding—\$2.00.

United Grain Growers:
Agricultural foal—\$2.00.

Federal Grain:
Heavy draft dry mare or gelding 4 years and over—\$2.00.

J. V. Berscht:
General purpose team, hitched—pair of Headlight Overalls.

T. E. Scott:
Four-horse team, hitched—\$5.00 trade.

Johnson & McClay:
Best gent's saddle horse over 14.2—\$2.00 trade.

Nick Nowak:
Girl's or boy's pony 13 hands and under—\$1.00.

X. L. Motors:
Purebred Holstein heifer calf—\$2.00.

Jack Boorman:
Grade dairy heifer 2-year-old—\$1.00.

Ray Lantz:
Grade dairy heifer 1-year-old—\$1.00.

Royal Bank:
Grade heifer calf—Medal.

George Hardy:
Grade heifer calf—\$1.00.

Crystal Dairy Ltd.:
Engraved cup. This cup to be won three times to become winner's property. Put up this year for grade dairy herd. Following years competition left to the discretion of the Fair Association.

Royal Bank:
Grade dairy herd—Medal.

Atlas Lumber:
Most number 1st prizes in beef cattle and dual purpose—\$5.00.

Jim Kirby:
Most number 1st prizes in beef cattle and dual purpose—\$2.00 trade.

Massey-Harris Company:
Grade sow 1-year-old and over—1st \$3.00; 2nd \$2.00.

Moses Good:
Grade bacon sow under 6 mos.—\$2.00.

W. W. Gillrie:
Most 1st prizes in hogs—\$5.00.

Roger Barrett:
Most 1st prizes in sheep.—Grease job, change of oil and check-up on hydraulic hoist for your car.

E. Gasser:
Most 1st prizes in poultry class.—Change of oil and wash job.

Mrs. C. D. Casey:
Best 1936 turkey pullet and young tom.—Prize, one of Mrs. Casey's imported 1936 turkey toms.

Mrs. C. D. Casey:
Best Rhode Island Red cockerel and pullet.—Prize, March hatched Rhode Island Red cockerel.
Best pair 1936 any other variety of chickens—Pair of lady's hose.

British-American Service Station:
Most 1st prizes in grains and grasses.—Change of oil.

Pioneer Garage:
Most 1st prizes in grains and grasses.—Gas, 6 gallons.

A. G. Studer:
Collection of vegetables—\$1.00.

Bawlf Grain:
Most 1st prizes in roots and vegetables—\$2.00.

Steve Klejko:
Loaf of home-made white bread—10 pounds of beef roast.

Pep Groceteria:
Roll jelly cake—24 lb Royal Household flour.

Mrs. Reta Fleury:
Angel food—Free marcel.

Herman Hawkes:
Most 1st prizes in domestic science—100 pounds flour.

Builders' Hardware:
Most 1st prizes in domestic science—Aluminum Kettle.

I.O.D.E.:
Most 1st prizes preserves, pickles, and canned vegetables—1st \$3.00; 2nd \$2.00.

H. D. Halliday:
Collection of jellies, 4 varieties.—Prize 20 pounds sugar.
Collection home-made jams, 4 varieties—20 pounds sugar.

Mac's Hardware:
Most 1st prizes preserves, pickles, and canned vegetables—Cold Pack canner.

H. W. Chambers:
Butter, 3 1 lb prints—½ dozen Sherbets.

Frank Kaufman:
Most 1st prizes in dairy produce—\$2.00 trade.

M. Weber:
Most 1st prizes in flowers—1st 7 pound Pancake flour; 2nd 3½ lb pancake flour.

Didsbury Ladies' Shoppe:
Collection embroidery, all white, 6 pcs.—\$2.50 trade.

Map of Alberta with rivers, lakes, railroads, cities and important towns.—\$2.00 trade.

Mrs. Wilson:
Most 1st prizes in fancywork—prize, house Dress.

North End Lumber:
Home-made bird-house by student any age—1st \$2.50; 2nd 1.50; 3rd \$1.00.

For Additional Classes

Ranton's Special:
Best Holstein milk cow. Engraved silver cup—to become the property of the exhibitor winning it three years.

Central Creameries Ltd., Carstairs:
Best dairy female purebred or grade any age; must be raised by exhibitor. Open to Carstairs members only. Engraved silver cup—to become the property of exhibitor winning it three years.

"Blue Ribbon" Tea Biscuit Competition—for ½ doz. tea biscuits:
Baked with "Blue Ribbon" Baking Powder. One empty tin or grocer's receipt to accompany each exhibit—1st \$4.00; 2nd \$2.00; 3rd \$1.00.

Sim. Good, Carstairs:
Best 1936 foal from the Sim Good Horse—1st \$5.00; 2nd \$3.00.

Allan Gole:
Best loaf white bread baked from "Robin Hood" flour—100 pounds flour.

Jenkins' Groceteria:
Best loaf white bread baked from "Golden Rule Groceteria Flour"—1st 98 pounds flour; 2nd 48 pounds flour; 3rd 24 pounds flour.

H. D. Halliday:
Loaf of bread baked from Robin Hood Flour donated by Robin Hood Mills Ltd. through H. D. Halliday. Dealer's sale slip must be attached showing a purchase of not less than 49 pound sack within the month of July. Prizes: 1st 98 pounds flour; 2nd 49 pounds flour; 3rd 24 pounds flour.

Alberta Pacific Grain:
Best sample of 222 wheat—\$2.00.

Adshad Garage:
For the best essay by boy or girl under 16 years from rural district on topic, "Why the Chevrolet Car is the Most Popular Car with the Farmer."—1st \$5.00; 2nd \$2.00.

July 21 is the day arranged to fix up the Fair Grounds in preparation for the 29th. Anyone interested please come with a hammer and a saw.

Without Fear Or Favor...

"I WILL hew to the line of right, let the chips fly where they may." It takes a stout heart to adopt this principle of General Grant's, yet it is the everyday matter-of-course attitude of a good newspaper. No matter whose head rolls in the dust, the truth must be told. No matter what storms of protest and vituperation it brings about its ears, your newspaper prints the news as and where it is found, faithfully and accurately. No malpractice to the public injury is hidden or condoned; no improper policy goes unchallenged. Because the newspaper is the forum and the voice of public opinion. It is the moving picture of daily life where all may see and all may judge freely and independently.

"THE truth, the whole truth and nothing but the truth." As conscientiously as though it were under oath your newspaper gives the plain unvarnished facts. Disagree with its editorials if you will—you have a right to your own opinions—but in the news columns you will find only the news, candid and impartial, on which to base your own judgments.

PRESERVE THE INTEREST and THE VOICE YOU HAVE IN AFFAIRS and IN YOUR OWN GOVERNMENT BY READING, AND, AT WILL, USING THE FREE IMPARTIAL COLUMNS OF YOUR NEWSPAPER.

THEN THE PHOTOGRAPHER RAN... This picture of a great wave coming aboard an Imperial Oil tankship on the Atlantic Ocean was snapped by one of the crew whose best act was to "snap out of it" into the shelter of a deckhouse.

HE CAN'T GO WRONG...

Clear, reliable road maps and courteous, helpful road and tourist information are only two of the extra services gladly given at Imperial Oil stations. ... With Imperial touring information and Imperial gasolines and motor oils, you just can't go wrong. Drop a line to Imperial Touring Service, 92 King St. East, Toronto, for free road maps marked with the best route for that motor trip you are planning.

A HOUSING PROBLEM SOLVED... Before Imperial Oil interests developed the oil fields of Peru there were homes there such as that on the left. Foremost in the development, which involved expenditures of great sums of money put up by thousands of investors, was a program to house the native workers. Its result was that rows of neat dwellings like those above sprang up on the desert near the oil fields.

BERGEN—NICHE VALLEY

Mrs. Suder is visiting her daughter, Mrs. Oscar Snyder.

Mr. Lowrie, formerly of the Royal Bank, Didsbury, now has the farm of Charlie Rowell.

Rev. Oscar Snyder is the Census enumerator for township 31, ranges 5, 6 and 7, west of the 6th meridian.

Miss Irene McConnell, who has taught Eidswold School for six years, has taken a school nine miles east of Airdrie.

Will Mjolsness has built and stocked a new store east of Bergen bridge. Watch Bergen business thrive. See Bergen first.

Eidswold School held its annual picnic at Olaf Arneson's place. There were the usual races, peanut scrambles, eats, and the drinking of lemonade, but THE feature was a ball game, girls against the boys. Mrs. Laura Hardy pitched for the girls, with Bella Scott as catcher. Mrs. Irene Davis at first sack and Mrs. Pearl Youngs at third sack. Mrs. Hardy accepted two liners and Mrs. Youngs a home-run. The fielders accepted all flies and slammed the ball out into the bush, keeping the boys on the alert to get to first base. It was a snappy game and everyone seemed to enjoy the day's outing.

A Plow With Sense and Backbone

This new Oliver Overhead Beam One-Way Disc Plow has Sense because the power lift and new power return lifts the plow out of the ground and returns it to work in a more practical way than on any plow ever built before. Secondly, it has backbone because the square 2 1/4" x 2 1/4" superior steel overhead beam provides a central pillar of strength and makes the power lift and power return possible. That overhead beam—with the beam above the discs—also gives far greater clearance for the handling of weeds and trash by the discs.

Come in and see this amazing new improvement!

WORLD HAPPENINGS BRIEFLY TOLD

The skull of the Marquis de Montcalm, governor of French Canada at the time of the British conquest, will be placed on exhibition in a Quebec museum.

The king has given his patronage to the British council, set up to promote closer cultural relations between the United Kingdom and foreign countries.

It was authoritatively stated Australia will accept the plans of the British government for a bi-weekly flying-boat service between Singapore and Port Darwin. It is planned to begin service August, 1937.

Unemployed in the United Kingdom declined by 126,188 in the period from April 27 to May 25, it was announced. Insured employees as of the latter date totalled 10,831,000, an increase of 120,000 over the month.

Frank Barnard and Fred Schrader of Edmonton, both blind, have made a model of the liner Queen Mary. On a scale of one inch to 25 feet, the model is 41 inches long and complete in every detail.

Negotiations are afoot looking to a faster and better steamship service between Canada and Australia and New Zealand, Hon. W. D. Euler, minister of trade and commerce, told the House of Commons.

J. R. Burbridge, junior city clerk in Halifax, earned \$920 last year and won a \$90 increase. This put him over the \$1,000-a-year class, where he was subject to a 10 per cent. cut. Now he draws \$909 a year.

Plans for a flight across the South Atlantic in a free balloon were being made by Dr. Zinner, famous Hamburg pilot. The 3,700 miles between Casablanca, Morocco, and the mouth of the Amazon river can be covered in from five to eight days with prevailing winds, the balloonist said.

Manitoba is free from grasshoppers this year, for the first time in five years, H. E. Wood of the provincial department of agriculture stated recently. He said that \$50,000 voted by the legislature for a poison-bait campaign will not be needed.

Fly Mathematics

Fly Can Become A Great, Great, Grandmother In Only A Few Weeks

A single female fly usually lays 600 to 1,000 eggs in her lifetime. Under favourable conditions these eggs hatch in ten or twelve days and there is an opportunity for seven or more generations in a season! In other words, this single fly can produce in only three generations, a few weeks apart, as many as one billion disease carrying menaces to health.

It is obvious that every effort should be put forth to destroy the first flies of the season. Each of the early flies killed means destruction of potential swarms.

As a menace to health, to say nothing of its disgusting loathsomeness, the fly is known to be a carrier of the germs of summer diarrhoea, typhoid and other serious diseases. And, although sanitation efforts have been instituted to curb many sources of contagious diseases, there has been little success in eradicating the common house-fly.

It is a matter requiring personal effort to keep the home clear of flies. The elimination of possible breeding places such as uncovered garbage, refuse, manure, rotting leaves, screens on doors and windows and covering of all foods, are all necessary precautions. But, should flies enter the home, a few Wilson's Fly Pads, used regularly according to directions, will kill them all in a few hours.

With reference to that watch on the Rhine, sooner or later somebody's going to get the works.

The seeds and skins of grapes yield an oil that is finding a number of uses in German industry.

Preserving B.C. Landmark

Directional Finder Will Be Carefully Guarded In Future

A block of stone engraved with lead letters, left at Vancouver, B.C., in 1898 by the crew of H.M.S. Egeria to determine longitude and latitude, has been uncovered near the sunset gun in Stanley Park.

The stone, buried under moss and gravel, was formerly used to correct errors in ship's instruments but fell into disuse and was completely forgotten.

Inscribed on the stone is the exact longitude and latitude of its position with a note it was placed there by the Egeria, historic British survey ship.

The mark is badly worn by feet of careless visitors who were unaware a historic relic lay hidden beneath them. Steps are being taken to preserve the landmark. A protective barrier of chain and concrete will be erected around it or it will be raised on a stone pedestal surrounded by a small garden plot.

Record Parachute Jumps

More than 800,000 parachute jumps were made from special parachute-jumping towers in Russia last year, according to figures just issued in Moscow. Russia claims, it is stated, that she now leads the world in parachute-jumping, holding all the records.

Great Progress Made

Montreal Doctor Hopes Eventually To Stamp Out Scarlet Fever

Scarlet fever, number one infectious disease, on the doctor's list, since diphtheria has been conquered, is now generally considered to be no more dangerous than chicken pox or measles, according to Dr. H. B. Cushing, Montreal, who presented a paper on the disease before the recent annual convention of the Ontario Medical Association.

Dr. Cushing warned that while scarlet fever is practically under control with the mortality rate down to one per cent., there is still danger of epidemics of great seriousness.

"If there were no scarlet fever many infectious hospitals would be closed," said Dr. Cushing. The development of tests and anti-toxins by Dr. and Mrs. Dick have added greatly to prevention, diagnosis and treatment, but these are not quite as satisfactory as similar methods used in diphtheria cases, he said.

Dr. Cushing was of the opinion the use of serum for scarlet fever is justified and was optimistic the disease would eventually be stamped out.

"Scarlet fever is practically certain to return in a very virulent form," said Dr. Cushing, "but it is comforting to know we can control the disease with serum."

Barometer Of Temperament

Teeth are a barometer of your temperament. If they have a bluish hue, you're temperamental; maybe even inclined to be neurotic. Yellow teeth indicate a jolly disposition. And pearly white teeth—the kind every one yearns for—are a sign of poor molars. . . . And speaking of teeth: America's sweet tooth has caused the per capita consumption of sugar in this country to nearly double since 1900.

MARCH OF PROGRESS

Year by year improvements succeed one another, on the prairies. The ox-cart gave way to the horse and buggy, and the horse and buggy gave way to the automobile, until now aeroplanes are gradually taking over many of the duties of the automobile. The latest step in the line of progress on the prairies is the coming of a powerful, high speed aeroplane ambulance to Regina to serve Saskatchewan, whose sponsors believe will save a great many lives. Preparations for the institution of this new service have been under way for a great many months. In the use of this aeroplane, the patient at a country point is placed on a stretcher, wrapped in blankets and is kept free from the danger of chills until admission to hospital.

On Way To Arctic

British Geologists Will Explore Mineral Possibilities Of Baffin's Land

On his way to Churchill, then to Southampton island, and the west coast of Baffin land, where he and four companions will spend the next three years, P. D. Baird, young geologist and graduate of Cambridge University, left Winnipeg recently.

Mr. Baird will be no newcomer to Canada's Arctic wastes, for in 1934 he spent some months on the coast of Baffin land as a geologist. The expedition is travelling under the auspices of the Royal Geographical Society.

While prospectors have gone as far north as Chesterfield, none has yet explored the mineral possibilities of Baffin land's west coast, Mr. Baird believed.

Among minor comforts which the young men are taking with them will be 12 pounds of tobacco, which they have brought all the way from England, and which is packed in airtight cans, and a radio receiving set.

New Type Of Engine

Turbomotive Drawing Famous Royal Scot Uses Super-Heated Steam

A noteworthy innovation in British railway practice took place when "The Royal Scot," the famous L. M. & S. train from Euston, London, to Glasgow Central was drawn by the turbomotive, a new type of engine which has been completed by the Company at their Crewe works.

Developing some 2,000 horsepower with a tender capacity of nine tons of coal and 4,000 gallons of water, the engine uses super-heated steam at a pressure of 250 pounds per square inch.

The turbomotive presents an unusual feature in the almost complete absence of the visible mechanism that characterizes the ordinary express engine. The only visible parts are the coupling rods of the driving wheels.

If small grease spots occur on silk materials, as quickly as possible, cover with talcum powder and let stand two days, then brush off with clean stiff brush. Very simple and yet effective.

The National Greyhound Racing Club of England has more than 45,000 dogs and 22,500 owners on its registers.

The hoatzin, a remarkable bird found in tropical America, has a pair of claws on its wings.

Victim—"Hey, that wasn't the tooth I wanted pulled."

Dentist—"Calm yourself, I'm coming to it!" 2155

Many Years At Sea

Sir Edgar Britten Started His Career In Sailing Ship

Sir Edgar Britten, tooling the Queen Mary out on the high seas, first went to sea in sailing ships 44 years ago. In his youth he jettisoned his middle name, Theophilus, and it seems a pity, for he resembles the Roman Emperor and it was an apt name. Theophilus was an iconoclast and humorist, and so is Sir Edgar.

He has ridden pretty nearly everything the Cunard line ever set afloat, and was commodore of the Cunard fleet and captain of the Berengaria, among many others. He was knighted in February, 1934, the third of the Cunard staff to be selected for this honor. The others were the late Sir James Charles and Sir Arthur Roston. The only White Star commodore who has been knighted is Sir Bertram Hayes.

Last fall, due to the consolidation of the Cunard and White Star lines, there was much uncertainty as to the command of the Queen Mary, with matters of seniority involved. Sir Edgar, ready to retire at 60, was persuaded to sign on for three years more.

"You must be a proud man," says the King to the captain.

"I am, sir," says the captain to the King.

He left grammar school to become a sailor on the Barque Jessie Osborn. He joined the Cunard service in 1901. In 1903, he was given a commission in the Royal Reserve. Multitudes of sea-going folk know him and esteem him highly. He has not only a trim ship and trim person, but a trim vocabulary. He is a great spinner of yarns and given to salty and witty discourse.

Marine Broadcasting Station

Latest Radio Equipment Integral Part Of Belfast Liner

According to the London Times, a new liner is now being built at Belfast which will have as an integral part of its equipment a complete broadcasting station. It will have not only an adequately powered transmitter of latest, most up-to-date design but specially constructed broadcasting studios and a special personnel for the purpose of planning and producing programs for the benefit of listeners ashore. The name of the ship is the Kanimbla.

When completed, it will sail from Belfast to its home port in Melbourne, Australia, where it will be put into active service between Adelaide, South Australia, and Cairns, North Queensland. The Kanimbla will be the first marine broadcasting station to be licensed by a government to transmit entertainment on regular schedules for listeners on land.

FLEMING'S FOLLY

— BY —
LAWRENCE A. KEATING

CHAPTER XVI.—Continued

"That's kind of a crude description, but it'll have to do. Grab that hombre if you see him. Let the rest of us know. We don't want to stir up too much fuss. But we want—that—cash!" he ended with sharp emphasis on each word.

They nodded, jerking their hats lower, hunching cartridge belts, fixing a staystrap here and there.

"Suppose we can't find him. What then?"

Link's eyes became brownish-grey pinpoints. "We'll find him."

"Yuh mean we're to raid the hull town if necessary?"

Fleming turned his horse. "I'm going to ride down Main Street as if everything was all right, keeping my eyes peeled. Shootin'll be a signal he's found, of course. Laverly, you and Shaw go around the other side and do like Waco and the boys are goin' to. It's a crazy idea, maybe," he confessed. "But I aim to find that money if it's in Rawhide—and we've got reason to think it is!"

CHAPTER XVII.

The men scattered. Link built a cigarette, lipped and lighted it, then urged his mustang at a leisurely walk down the main thoroughfare of Rawhide, sweltering in the heat.

Few persons were visible on the sidewalks, merely a scattering of ranchers come to town for supplies and to visit the post office. "Hy, Link," one man hailed, carrying out the custom of the last seven months. "How's Fleming's Folly comin'?"

Another loafer grunted audibly. "Don't really think yuh'll hold water there, do yuh, Link?" Reckon yuh want that dam for a fort, to stand off creditors when they come a-gunnin'!"

The six-foot rider grinned—a little wryly, his keen eyes roving the street for a man in a checkered shirt. Also for Jackpot Mell. The gambler might step out of any door, round any building, for the showdown.

"Hey, Link!" Matt Benson called as if reading his very thoughts. "Mell's lookin' for yuh!"

He took out his sixgun and examined it carefully, spinning the cylinder and testing the trigger spring. By no means a professional gunman like his opponent, he nonetheless had some experience defending himself. Link knew he was fast on the draw, but there was grave doubt in his mind whether he

was fast enough when pitted against a professional killer like Mell.

He shrugged his shoulders. There was no way out of it. He would do his best, and the result must be left to fate.

Dismounting before Sam Pickett's store, he tied his mustang at the hitchrail, ducked underneath, and strode with jingling spurs across the board sidewalk. A number of customers were in the store, all known to him at least by sight. The holdup was not there.

Link beckoned Pickett aside. He spoke in a tone so low that the grey-haired groceryman leaned to catch it. "Seen a heavy-set chap in here with corduroys and a checkered shirt?"

Sam shook his head. "Nope. What's his name? Want him, Link?"

He touched the butt of his gun significantly. "I wish you wouldn't mention this. I'm not sure of his name but I want him, yes. Let me know if he comes in, will you?"

Puzzled, the storekeeper rubbed an eyebrow and nodded. "Sure."

Link turned away. Answering as briefly as possible the greetings of the customers, he sauntered out of the place. As he stepped over the threshold he paused for a sharp look up and down the street. It was necessary to keep a keen vigilance for Jackpot.

His errand repeated in Thomas's hardware store and the dingy Old-time Saloon was equally fruitless. In the latter place he discovered Laverly just ordering a drink. From the steady look in his rider's eyes Fleming knew the wanted man had not been found.

The next building in line was the Half Moon. He shifted his gun belt as slowly he approached the place. This was Mell's hangout.

As the door flapped behind him he gave a quick look around. Mell was not present. He stepped to the bar, ordered a drink, and made a more detailed survey. Five men were settling up a card game at a wall table. Two others stood near Link at the bar. Gus, the rotund servitor, clapped a glass before him and filled it. As he was sipping the liquid, someone touched his arm.

He turned slowly to find Buzz Hamilton, wearing a queer, harried look. "Link, yuh got that steer money? Here's a note that says yuh should turn our share over to me." He produced a slip of paper and tendered it.

The message was brief and business-like, signed by Helen, requesting that he hand the Triple H share to Buzz. Fleming gave the paper back.

"I haven't the cash right now. Had it, but I got robbed. Sht! Don't spread it, Buzz—I trailed one of the hombres to town," he whispered swiftly. "The other's lyin' out near Junction with a slug in his head."

The ex-convict's heavy eyes, bleary with drink, gleamed in suspicion. "Yuh can't stall me, Fleming!"

There was open hostility between them, but the manner of each man was subdued. "I'm not stalling, Buzz. It's God's truth. Why should I stall? You're due the money, and I want my share."

Just then Roper Kilgo entered from the rear. "Hy, Buzz, you got the cash? Then I'll tear up this transfer of yores. I ain't the guy to play cards for paper. I want hard cash!"

Fleming looked at Buzz. "What does he mean, 'transfer'?"

His hands closed until the knuckles shone white. "I've got to have that money before noon, and it's up to you to get it to me. That note proves it. Bring me the cash before noon," he insisted with keen anxiety showing through his arrogance. "I've got to have it before twelve!"

Link started to ask "What for?" but with a final insistent gesture young Hamilton made for the table at which Kilgo had seated himself.

"Dey been playin' cards. Buzz lost," Gus, the bartender, whispered. "They play all nide, by golly!"

A look of surprise made him lean across the bar. "Buzz, he give Gilgo some kind of baber. And he's drinkin'—plenty!"

Fleming chanced to catch Roper's eye and the rancher indicated that he should sit down. "Come on, have a drink," he invited with a lordly air, rolling a thick black cigar between his lips.

"Reckon not, thanks."

It was more than likely a crude

Mr. CAFFEINE-NERVES . . . another victim gets away!

MANY PEOPLE, of course, can safely drink tea and coffee. But there are thousands and thousands of others who cannot. And, without realizing it, you may be one of these.

The caffeine found in both tea and coffee may be working night and day to rob you of sleep, upset your digestion, or undermine your nervous system.

If you suspect that tea and coffee disagree with you... switch to POSTUM for 30 days. POSTUM is simply whole wheat and bran, roasted and slightly sweetened. It is a delicious drink—and contains nothing that can possibly harm you. It is economical and easy to prepare.

FREE—Let us send you your first week's supply of POSTUM—Free! Write for it to Consumer Service Department 101, General Foods, Limited, Cobourg, Ontario. P7-36

attempt to trap him, of course, that suave invitation. Jackpot Mell was certain to enter sooner or later. But Link preferred the shooting, if there was one, to take place outdoors rather than in the Half Moon.

"Aw," Buzz sneered in reply to something Roper said, "he claims he ain't got the money right now. Got to get a check cashed or something."

At any rate Hamilton had kept the secret. Link paid for his drink, preparing to leave. As he handed back change Gus whispered to him: "Watch yore sdep, Link. He's loogin' for you!"

"Thanks," Fleming strode outside. Just then a two-seater buggy drew up to the hitchrack before Pieper's bank and he recognized Helen Hamilton alighting. She saw him at the same moment and beckoned.

"Is Buzz in there?" was her opening question as he approached reluctantly.

"Yes," she frowned and moistened her cherry-red lips, looking up at him.

"Could you—that is, would you—make him come out? Oh," she hurried on, "Buzz said he had an important matter to attend to in town. That was last night, just after Roper left. I—I went to bed, but this morning I discovered Buzz hadn't come back. I didn't find out till an hour ago, as I got up early and went to look at the dam. The men insist they must have their money today," she added.

As Link nodded she stared downward and with the toe of one shapely riding boot made little marks in the dust. "I know Buzz has been gambling. It's been in his blood. I've seen the longing in his face ever since he came home. Is he—drinking much?"

"Quite a bit."

Helen sighed. "Is Roper in there?"

"Yes. It might be hard to get Buzz out. They played poker all night. Where did he get the money, Helen?"

"He didn't have much. But, Link, I—I'm afraid. You see, I gave him power of attorney."

He started. "You did!"

"Yes," Roper said I should give Buzz more responsibility, that it would be the making of him. Why?" The girl's wide eyes sought his, and when he did not answer at once she clutched his arm in apprehension. "Link! What has he done?"

"Well," came reluctantly, "he signed over your ranch to Roper on some kind of temporary scheme. For cash to play with, I reckon—a loan. He's in a rush for the steer money before noon." He glanced at his watch. It's eleven now. Must be," he reflected, "Kilgo was foxy enough to tie Buzz up in some trick agreement. Either he must pay back the money Roper loaned or, if he hasn't done it by noon, the Triple H changes hands!"

The girl's slender fingers went to her lips. "He couldn't!" she gasped, and turned to stare at the stolid front of the Half Moon.

"Yes, I reckon he could. It'd be legal, all right."

Waco Byrne was approaching, still some distance off. At sight of him Hally started from another direction, and Drew from a third. Helen touched Link's arm. "Well, you shipped the cattle, didn't you? Where's the money? We'll—we'll take up Roper's note."

"But why are you worried?" he questioned, delaying the truth as long as he dared. "If you and Roper are—well, suppose Kilgo does get possession of your spread? I mean, if you and Roper are to be—married. In this state a husband owns his wife's property anyhow."

He did not look at her as he spoke, and when he did lift his eyes, found her anxiety trebled. "But, Link," she wailed, "Roper boasted to Jackpot Mell that he didn't intend to marry me! That he was—it was all in order to get the ranch. Sheriff Stephen rode past the spread this morning and told me."

"And now—now," she struggled, "he's going to get it by this agreement with Buzz! Oh, why do you stand there?" the girl cried angrily. "Why don't you pay me the cattle money and—get Buzz out of this

mess? It's ours, isn't it? We're entitled to it, aren't we? Why don't you give it to me?"

The Star Loop riders were almost in earshot, converging as they neared. Link swallowed hard, strove to meet her blazing eyes—but dropped his gaze to the road at his feet.

"Gosh, Helen, I would! Only I... I was held up. Its gone!"

(To Be Continued)

Peddler's Son Is Judge

Canadian Elevated To New York General Sessions Court

Jonah J. Goldstein, who journeyed to New York in his early youth from Rocks Corner, B.C., and became a city magistrate, holds a general sessions judgeship at \$24,000 a year.

Mr. Goldstein, just turned 50, passed his boyhood on New York's lower east side.

"I like trying to put together again like a crossword puzzle those who have taken a false step," Mr. Goldstein said.

Mr. Goldstein was born at Rocks Corner, B.C. His father was a peddler. With his parents and two brothers and five sisters he came to New York when he was six years old to live in a tenement house.

A still-life painting of fruit and vegetables by Queen Victoria brought £8 (\$39.50) at a sale in London. The canvas measured twelve by eighteen inches and was signed "Victoria, January, 1873."

The quantity of nicotine contained in tobacco varies from 2 to 8 per cent., the coarser kinds containing the larger quantity.

Now Australia has evolved an excellent face powder from dried shark brains.

SUNBURN RELIEVED OR PREVENTED BY "MECCA"

Prevent it by rubbing in Mecca Ointment, or relieve it by liberal applications. Stops pain, soothes irritation and heals tender skin. 25c, 35c (tube), 50c and \$1.00.

Coleman Hot Plate Cooks with Air!

Handiest cooking unit for kitchen, summer cottage, camp... The stove of a thousand uses.

- Burns 90% air—45 fuel
- Makes its own gas from gasoline
- Use it anywhere. No pipes nor connections

Can You Beat It?

Mrs. Manasseh Weber reports
that they had new potatoes, beets,
peas and carrots out of their garden
before June 26. This is remark-
able, as local expectations were that
the feat would be impossible this
year.

Mrs. E. G. Ranton and son Bill,
with Mrs. W. Chamberlin and Miss
Florence, were Calgary Stampede
visitors on Monday.

LOCAL & GENERAL

Westerdale Club Sports Day and
Dance, Wednesday, July 22

Messrs. Clint and Art Reiber
motored to Lethbridge on Friday
evening and spent the weekend with
their sister, Mrs. W. Morrow.

Mr. and Mrs. W. D. Klein, of
Majorville, Alberta, visited with
relatives and friends over the holi-
days.

Fred Reiffenstein has installed an
electric welding machine and is now
prepared to do all kinds of electric
welding.

For ALL Lines of Men's Work
Clothes—Try T. E. Scott.

Mr. and Mrs. J. Murray, of Blue
Sky, and Mrs. Mae Rinson, of Fair-
view, were the guests of Mr. and
Mrs. Dunlop, on Wednesday and
Thursday.

Percy Saunders, accompanied by
Mr. and Mrs. Huston of Allingham,
left Saturday for Vancouver. Percy
says Gerry McGeer paid them a
visit last summer and they are
returning it.

Mr. Norman McLeod, who is tak-
ing over the management of the
Alberta Wheat Pool Elevator, moved
here with his family on Monday.
They will occupy the house vacated
by Mr. DeWitt.

Rev. J. R. Geeson conducted the
induction service at the Olds United
Church last Friday evening, when
Rev. Norman Whitmore, late of
Pincher Creek, was inducted as
pastor of Olds United Church.

Buy Your Running Shoes and
Scampers from T. E. Scott! We
have a complete stock on hand.

Master Ken Deane, of Edmonton,
is the guest of Don Dunlop and
will accompany Mr. and Mrs. Dun-
lop and Don on their vacation. They
left Saturday on a motor tour to
British Columbia.

Mr. and Mrs. H. Halton and son
David, of Pincher Creek, and Mr.
and Mrs. W. H. Moser, of Hillcrest,
Alberta, spent the weekend with
the former's son, Mr. J. W. Halton
and family.

Ralph Honey, the local horseshoe
pitcher, expert went with the Olds
horseshoe players to Drumheller on
Dominion Day. He and C. Watkin
won the cup put up for the doubles
championship and he also won sec-
ond place in the singles event.

Mr. and Mrs. J. E. Gooder left on
Tuesday on a vacation to Toronto
and points east. On their return
they will visit at Washta, Iowa, and
with relatives at Cheyenne, Wyo-
ming. They expect to be away two
weeks.

Mr. and Mrs. Harry Levagood
and Joyce motored to Wainwright
last Saturday, returning Tuesday
accompanied by their daughter Mild-
red, who has been teaching in the
Wainwright district. They were
accompanied as far as Irma by
Dorothy Geeson.

Mr. Tom DeWitt, who has had
charge of the Alberta Pool Elevator
for the past three years, has been
transferred to Throne, on the La-
combe branch of the C.P.R. On
Friday evening Mr. and Mrs. De
Witt were honored at a farewell
party tendered by the members of
the Canadian Legion.

Misses Mildred and Joyce Leva-
good left Wednesday for a 40-day
tour of the Western States. They
will go as far south as Mexico. The
itinerary includes such points of
interest as Hollywood, Yosemite,
Grand Canyon, Boulder Dam, and
the Yellowstone and Glacier Parks.
The tour is made by bus with the
Alberta Recreational Society.

Miss Beth Wigglesworth, who
left Wednesday for Winnipeg, where
she will live with Rev. H. J. and
Mrs. Wood while taking a business
course, was surprised Tuesday night
by the young people of the Evan-
gelical Church. A delightful even-
ing's entertainment was enjoyed,
with Miss Wigglesworth being
presented with an over-night case
as a farewell remembrance by her
many friends here.
